## OVERALL FINANCIAL ANALYSIS

The FAS budget of 5,384,222 CHF was not fully realized (4,832,969.97 CHF was gathered) as planned due to the following reasons:

1. Donors gave funding on a project by project basis as opposed to overall institutional funding.
2. There were very few donors focused on post conflict peace building so the funding became difficult.
3. A huge turnover of human resources at FAS as it mainly depends on a bi-annual recruitment of interns. This results in an experience gap being created in the organization.
4. Most of the contributions to FAS came from Governments and hardly anything from the private sector.

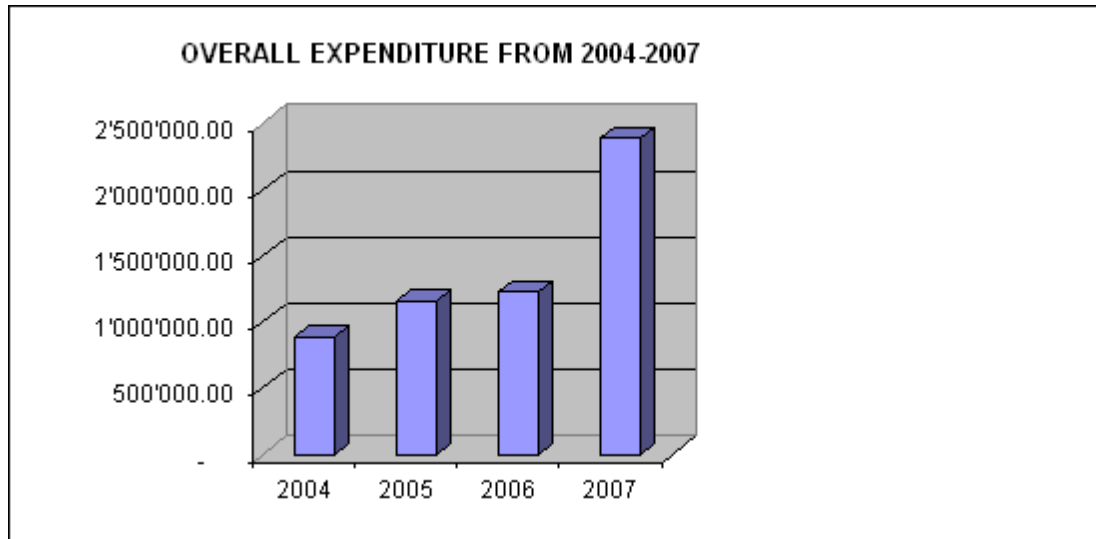

On the other hand, FAS was able to:

1. Build on its human resources in the three offices (Geneva, Dakar and New York) because of the institutional funding received from The Netherlands.
2. Get new partners for some of its projects like the Government of Senegal for a place to build the Pan African Centre for Gender, Peace and Development and the United National Democracy Fund for the project called: “Building Democratic Institutions in the Democratic Republic of Congo”.

Below are the Details of the revenues and expenditures from 2004 to 2007 according to planned budget. All amounts are in Swiss Francs.
